STANDS

FOR THE FIRST TIME IN OUR 63 YEAR HISTORY, **WE ARE OFFERING OUR PRODUCT LINE DIRECT!** NO MIDDLEMAN, JUST QUALITY AND MAXIMUM SAVINGS TO YOUR FACILITY.

■ #2006

The #2006 is the classic single pump IV stand. All steel double chrome plate construction ensures long term reliability in the hospital environment.

- 23" diameter, all steel five-point base with Nickel Chrome Plate Finish
- 3" premium roller blade casters
- Double chrome plated 1" to 7/8" telescoping upright with posi-lock coupling to eliminate slippage.
- Four hook ram's horn type solution holder
- Height Range 68" to 108"
- Weight: 20 lbs
- Base and pole shipped in separate boxes

■ #1099

The #1099 is a small foot print Heavy Duty IV stand designed to support multiple pumps.

- 22" diameter, low center of gravity castbase
- 3" premium roller blade casters
- Double chrome plated 1.25" to 1" telescoping upright with posi-lock coupling to eliminate slippage
- Four hook ram's horn type solution holder
- Height Range 70" to 110"
- Weight: 34 lbs
- Base and pole shipped in separate boxes

■ #3099

The #3099 is a low center of gravity Heavy Duty IV stand appropriate for Multiple pumps on its twin uprights.

- 22" diameter, low center of gravity cast base
- 3" premium roller blade casters
- Dual double chrome plated 1.25" to 1" telescoping upright with posi-lock coupling to eliminate slippage.
- Dual four hook ram's horn type solution holders
- Height Range 85" to 110"
- Weight: 40 lbs - Base and pole shipped in separate boxes

STANDS

STEELCRAFT HAS **CONSISTENTLY SET THE STANDARD** BY WHICH ALL OTHER MEDICAL DEVICE STANDS ARE MEASURED.

THE ONLY AVAILABLE IV STAND MANUFACTURED IN CONFORMANCE WITH CURRENT FDA REVIEW GUIDELINES FOR USE WITH A+3 TRIPLE CHANNEL PUMPS.

■ #2097SR

The #2097S is a low center of gravity small foot print IV stand designed especially for the pediatric environment.

- 19" diameter, low center of gravity cast base
- 3" premium roller blade ball bearing casters
- Powder coated 1.25" to double chrome plated 1" telescoping upright with posi-lock coupling to eliminate slippage
- Four hook ram's horn type holder
- Height Range 60" to 100"
- Weight: 31 lbs
- Base and pole shipped in same box

■ #3097

The #3097 is a low center of gravity Heavy Duty IV stand appropriate for a Multi Channel pump such as a Hospira Plum A+3.

- 25" diameter, low center of gravity fabricated steel base
- 4" Premium twin wheel urethane casters
- 3 locking, 3 non locking
- Eight hook U type solution holder
- Height Range 70" to 83"
- Weight: 54 lbs
- Base and pole shipped in separate boxes

■ #3097S

The #3097S is a low center of gravity Heavy Duty IV stand designed to stack 2 Multi Channel pumps such as the Hospira Plum A+3 in half the space.

- 25" diameter, low center of gravity fabricated steel base
- 4" Premium twin wheel urethane casters
- 3 locking, 3 non locking
- Eight hook U type solution holder
- Height Range 70" to 83"
- Weight: 54 lbs
- Base and pole shipped in separate boxes

SST STANDS

PROTECT YOUR LARGE INVESTMENT IN HIGH-TECH DEVICES BY MAKING A SMALL INVESTMENT IN HIGH-TECH TRANSPORT SYSTEMS

***SST* Series**
Smart Stands for Smart Pumps

Clinical engineers currently report an unacceptable pump failure rate due to accidental impact caused by unstable IV stands.

■ #SST5120

■ #SST6120

DEFINING SMART STANDS:

SST Engineered solid steel or iron cast bases for maximum stability with minimum footprint - **NEVER LIGHTWEIGHT ALUMINUM**

SST Low profile 5 or 6 leg-base configuration - **NEVER 4 LEGS**

SST Premium casters perfectly matched with each base option for smooth and silent operation - **NEVER EXPENSIVE OR POORLY MATCHED WHEELS**

SST Single upright construction to prevent loosening or separation of pole - **NEVER SEGMENTED POLES**

SST Compression coupling die cast with internal brake pad for easy and safe telescoping - **NEVER DIRECT CONTACT WITH HANDWHEEL**

SST All components protected by advanced, state-of-the-art coating processes for greatest durability - **NEVER INFERIOR SURFACE COATING**

SST Innovative all-steel accessories - **NEVER PLASTIC**

ACCESSORIES

Steelcraft #401PP
4-plug certified hospital grade power strip with cord wrap

Steelcraft #402AT
Clamp on transport handle for patient ambulation and device protection

Steelcraft #402C
Circular handle for greater ease of device transport and/or patient ambulation

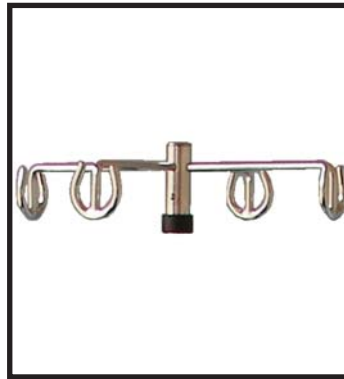

Steelcraft #403MP
Quad frame adapter to support four pumps on a single upright

Steelcraft #404ET
Clamp on O2 cylinder support bracket - No breakable plastic rings

Steelcraft #405-4
Standard four hook ram's horn style fluid holder

Steelcraft #405-8
Eight hook double "U" fluid holder

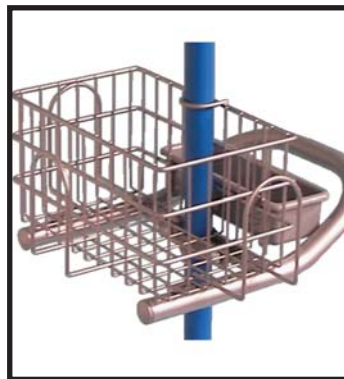

Steelcraft # 405D
Steelcraft # 405R
Innovative designs for better line identification

Steelcraft #406DP
Dual pump tandem carrier for multichannel capability with your current devices

Steelcraft #407B
Clamp on accessory basket

Steelcraft #407HB
Clamp on accessory handle basket combination

Steelcraft #12578LL
Horizontal 18" mounting tube for full transducer height adjustment

EVERY ACCESSORY ALL SOLID STEEL CONSTRUCTION - NO BREAKABLE PLASTIC

INNOVATIVE EQUIPMENT
DESIGNED JUST FOR KIDS
FROM OUR PEDIATRIC DIVISION
